Ross McClintock Joins USA Wire & Cable Inc. as Account Manager

USA Wire & Cable Inc. (USAWC) is pleased to announce the addition of **Ross McClintock** as an account manager. Ross will focus on electrical distributor accounts in South Texas as well as the Texas Gulf Coast from Beaumont to Corpus Christi.

Ross's experience in the industry includes eight years with Brown & Root in Houston, where he served as staff manager for the Project Material Controls Group in the marine and pipeline department. Here he supervised material and document control technicians involved in global engineering and construction projects.

Ross also has 18 years of experience as an account manager for electrical distribution with Warren Electric Supply and Summit Electric Supply. As account manager he managed wire, cable and bulk construction materials contracts for major engineering and construction, petrochemical, marine and pipeline projects in the United States, Latin America, Asia and Russia.

"We're happy to have Ross with us at USA Wire & Cable," said Joe Navarro, USAWC president. "Our customers will benefit from his extensive cable knowledge and experience."

USA Wire & Cable Inc., a privately owned company, has served the power and industrial markets for 22 years with a full line of wire and cable products. USAWC is known as the premier provider of cable management services for power plants and large-scale industrial construction projects. USAWC stocks only American-made wire and cable. Warehouse and corporate offices are located in Austin, TX.

For more information, please contact Don Kerr at 800-880-9473 or dkerr@usawire-cable.com.
